

***Mother of Divine Grace School
On-Line Classes 2011 - 2012***

Meet with Laura Berquist!

These monthly two hour classes will be conducted over the internet. Each month will feature a different stage of formation. Laura will review the methodological goals for that stage, the texts used in our program, and why we use them. In addition, Laura will explain how to implement these methodological and content goals. The last 30 minutes will be devoted to a case study during which you will have the opportunity to ask questions and share ideas.

Class sizes will be kept small in order to optimize the interactive class experience. Handouts for the course will be emailed to participants the week before the course. These materials are copyrighted, so please do not copy them for others.
